|-----------------|------------------|--|
| <b>Projects</b> | Tæt              | Homely cultural initiative Tæt. - curator / organiser / design / publicity<br>A former brothel and squat is now the residence of two neighbours, but also an omnidisciplinary artspace with two downfloors and a humid cellar. Because of the contrast between artspace and living space the roles of maker and curator are questioned, the creative process is intertwined with personal live of the inhabitants and creates interesting restrictions and tensions. |
|                 | Omenamehu        | Jolly video series full of musical non-communication for toddlers of all ages, inspired by children-shows like 'Tiktak' and 'Bumba'. This form gives the freedom to use music, visuals and language in it's most basic forms, and to question concepts like reason, communication, entertainment and artistic justification without being a bother.  |
|                 | Weerthof         | DIY home-build songs. Call me a song-builder. All the playing of instruments, writing of lyrics, singing and construction work happens in the home-studio.   |
